Senator Sam Brownback  
303 Hart Senate Office Building  
Washington, DC 20510

Dear Senator Brownback:

Yahoo! appreciates the extraordinary effort that has gone into crafting the Consumers, Schools and Libraries Digital Rights Management Awareness Act of 2003 and we support this legislation.

Yahoo! is a leading provider of comprehensive online products and services to consumers and businesses worldwide. With a global audience of over 200 million users, it is the number one Internet brand globally and the most trafficked Internet destination in the world.

Your bill promotes competition, recognizes that the development of broadband will be driven by consumer demand, and stands up for user privacy. As you well know, it is essential that we fight piracy, whether online or offline, and preserve the balance that has been integral to our system of copyrights and intellectual property.

We look forward to working with you as this bill moves through the legislative process.

Sincerely,
